

## ORKIM CHEMICALS INC. PRODUCTS BY FOR EXHAUST PROCESSES: AUXILIARIES FOR PRE-TREATMENT

### Pre-Cleaning Agents - Boiling-off, Scouring, Extraction Auxilairies

---

109 TEKSROL KE : Pre-cleaning agent with extracting, dispersing, complexing power.

### Wetting Agents - ORVET K, RPX & MER Series

---

- 114 ORVET K-T : Very low-foaming APEO-free wetting agent for use in peroxide bleaching in exhaust and continuous methods.
- 114C ORVET K-T Conc. : Concentrated very low-foaming APEO-free wetting agent with high washing power for bleaching in exhaust method.
- 115 ORVET K-B : High concentrate low-foaming, fast acting, APEO-free wetting agent with high extraction & good cleaning power designed especially for scouring and boiling-off; also suitable for bleaching
- 127 ORVET RPX Jet 40 : Concentrated nonionic rapid wetting agent with very low foam level suitable for jet applications
- 150 ORVET MER : Fast acting wetting agent especially designed for mercerizing and boiling-off applications that can withstand up to about 300 g/L NaOH.

### Peroxide Stabilizers & Chealating Agents - STAB & ORILON Series

---

- 612 STAB C : Peroxide stabilizer for bleaching. Complexes >125 mg CaCO<sub>3</sub> at pH 10
- 615 ORILON CK : A compound complexing agent and stabilizer for bleaching
- 623 ORILON T : Complexing agent for Ca and Mg ions
- 625 ORILON Fe : Conc. Complexing agent for Fe+3 ion

### Enzymes - ORPEREN, ORSIZE & ORPILL Series

---

- 912 ORPEREN 400 : Catalase enzymes to be used in peroxide bleach clean-up, to transform residual H<sub>2</sub>O<sub>2</sub> into oxygen and water, while reducing multiple rinse-wash cycles
- 921 ORSIZE T : High activity Thermostable Alfa Amylase enzyme for de-sizing
- 931 ORPILL EN : High activity Fungal Cellulase enzyme for depilling for lyocell and a variety of cellulosic fabrics
